MONTANA

1989 BIG GAME

Centennial Edition Hunting Regulations

The regulations are compiled into three main segments. Each segment is color coded to further clarify the regulations.

GUIDE TO USING THE REGULATIONS

General Information — All segments prefaced by a brown color bar are designed to provide sportsmen with general information on license purchases and big game hunting rules and regulations. Also, answers to some of the most common questions asked by sportsmen, as well as Montana's sunrise and sunset tables, can be found under these brown color-coded segments. In addition, the map segments under a brown color bar will define regional administrative boundaries and help you to easily locate each regional headquarters.

General Big Game Licenses and Season Dates — All segments prefaced by a golden color bar are designed to provide sportsmen with detailed, species-specific information for the type of licenses required to hunt: deer, elk, black bear, grizzly bear, and mountain lion. Also, each hunting district's general season and archery season opening and closing dates, as well as each hunting district's bag limits can be found under these golden color-coded segments.

Special License and Permit Drawings — All segments prefaced by a blue color bar are designed to supply sportsmen with the information they will need to properly apply for all licenses and permits that are awarded through special drawings. The special drawings are for a limited quota of licenses and permits for: deer, elk, antelope, moose, sheep, goat and buffalo. Under these blue color-coded segments, sportsmen will also find specific information on season dates, tentative harvest quotas set by each hunting district and the sportsmen's reporting requirements after an animal is harvested.

GENERAL REGULATIONS

Property Laws

Permission to Hunt Big Game — Montana law requires that big game hunters must have permission of the landowner, lessee or their agent before hunting big game animals on private property, regardless of whether the land is posted or not.

Obtain Permission Eerly — Approximately 70 percent of Montana's hunting districts are comprised of private land. In some hunting districts, it is difficult to obtain access to private lands. Sportsmen should secure landowner permission before applying for a special license/permit in these areas.

Trespess — Montana law states that lands can be closed to the public either by posting the land or through verbal communication by landowners or their agents. If permission is granted, the landowner may revoke permission by personal communication at any time.

Posting Requirements — Notice denying entry to private land must consist of written notice on a post, structure or natural object or by painting e post, structure or natural object with at least 50 square inches of fluorescent orange paint. In the case of a metal fencepost, the entire post must be painted. This notice must be placed at each outer gate and all normal points of access to the property, as well as on both sides of a stream where it crosses an outer property boundary line. Sportsmen are reminded that they must have landowner permission before hunting big game animals on private property, regardless of whether the land is posted or not.

Closed Areas

State Game Preserves, closures, and National Parks shall remain closed to hunting of big game animals. For hunting privileges on Federal Wildlife Refuges, inquire at the local refuge office. Hunting privileges on Indian Reservations are limited to tribal members only.

Wildlife Management Areas (Game Ranges) are closed to public entry from December 1 to May 15 each year, as posted.

Motorized Vehicle Travel

A common question asked by sportsmen is "May I drive off established roads and trails to retrieve game?" There is no standard answer. In all cases when on private lands, sportsmen must first obtain permission of the private landowner. In the case of public lands, the answer varies. BLM public lands are open to motorized travel unless designated closed. On National Forest lands, restrictions to motorized travel are described on Travel Plan maps available at local U.S. Forest Service offices.

Firearms

Rifle Caliber — There is no rifle caliber limitation for the taking of big game animals in Montana. However, the use of poisonous, explosive or deleterious substances on or in any bullet or projectile is prohibited.

Shotgun — Sportsmen are prohibited to shoot deer with shotguns except with loads of 0 buck, 00 buck or single ball loads.

Muzzleloader — In hunting districts restricted to archery, shotguns and muzzleloaders, the muzzleloaders must use a round ball .45 caliber or greater.

Tagging and Transporting Big Game

Tagging — Immediately after harvesting a game animal, sportsmen must cut out the proper month and the day of the harvest from the appropriate license/tag and attach to the animal in a secure and visable manner. If more than one date is cut out, the license is invalid. The properly validated license shall remain with the meat until consumed (including cold storage). If quartered, the license should remain with the carcass or largest portion of the carcass. The tag is to remain attached to the hide of a bear or mountain lion until it is tanned.

Transporting — Properly tagged big game animals may be transported to any destination by the license holder. Properly tagged big game animals being transported by an individual other than the license holder should be accompanied by written authorization from the license holder listing: 1) date of kill, 2) location of kill, 3) species and sex of animal being transported, 4) origin and destination of such transportation, 5) name, address and home phone number of the person who killed the animal, and 6) the name, and address and home phone number of the individual transporting the animal.

Evidence of Sex Requirements

It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains **neturally attached** to its carcass or a portion of the carcass.

In most cases, the easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed, some other evidence of sex must remain naturally attached to the carcass or a portion of it.

The following are considered lawful evidence of sex:

- **Horned or Antlered Game Animals:** Male—head with the horns or antlers naturally attached, penis, testicles or scrotum. Female—head or udder (mammaries).
- **Beers end Mountain Lions:** Male—testicles or baccu-lum. Female—vulva.

Evidence of an animal's sex and species must be retained until the animal's meat is processed (cut and wrapped) or until a bear or mountain lion is checked by a Department employee or delivered to a taxidermist.

Sportsmen harvesting a big game animal, if required by the Department, must physically return to the kill site for inspection.

Required Clothing Color

Any person hunting or accompanying a sportsmen as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist, visible at all times.

Attention Archers: Archers must wear a minimum of 400 square inches of hunter orange above the waist while hunting in any hunting district where firearms are also permitted to be used. The hunter orange requirement is not in effect during the special archery seasons, which are specifically listed in these regulations as: "ARCHERY ONLY".

Hunting Hours

Authorized hunting hours for the taking of big game animals begins one-half hour before sunrise and ends one-half hour after sunset each day of the hunting season. See official sunrise-sunset table on page 36 of these regulations.

Game Limits

No person may kill more than one big game animal of any one species in any one license year, unless otherwise specified.

Checking Stations

All sportsmen are required to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if there is no game or fish to be checked.

Hunter Education

- Resident sportsmen 12-17 years of age are required by law to have a Montana Hunter Education Certificate of Competency in the safe handling of firearms before they may purchase a hunting license. The Certificate of Competency is awarded to resident youths who have successfully completed Montana's Hunter Education Program.
- New residents of Montana 12-17 years of age need to check with their local Fish, Wildlife and Parks office to determine if their out-of-state hunter education course can be accepted and to receive a Montana Hunter Education Certificate.
- Both resident and nonresident youths 12-17 years of age who wish to archery hunt, must provide a Certificate of Competency in the safe handling of bow hunting tackle from the National Bow Hunter Education Program, in addition to the Certificate of Competency in the safe handling of firearms.
- Persons applying for the 1989 special drawings must be at least 12 years of age before September 15, 1989, and provide required proof of successfully completing a Hunter Education Program at the time of applying for the special drawings.
- Youths under 14 years of age must be in the company of a parent or legal guardian while big game hunting.

Do Not Disturb Traps

Montana trappers are permitted to trap fur-bearing animals during designated seasons; predatory, and some non-game animals most of the year. Sportsmen afield who find a trap are prohibited from disturbing the traps or trapped animals.

Outfitters and Guides

It is illegal to hire or retain any unlicensed outfitter or guide. For information or verification, telephone the Department of Commerce at 444-3737.

Littering

A person convicted of littering while hunting, fishing or camping shall forfeit his license or privileges to hunt, fish or camp within Montana for a period of one year.

Marked Animals

It is legal to shoot big game animals that have radio collars, neck bands or markers, but markers and radios must be returned to the Department of Fish, Wildlife and Parks.

Game Damage Seasons

The Department may authorize a special season (before or after the general hunting season) to alleviate game causing property damage.

AVOID VIOLATIONS OF THE LAW

- Sportsmen ere prohibited from wasting any part of any game animal, game bird or game fish that is suitable for food. Game animal parts that are defined as being "suitable for food" are: all of the four quarters above the hock, including loin and backstrap. (The law does not apply to black bear, grizzly bear and mountain lion.)
- Sportsmen are prohibited from shooting or attempting to shoot a game animal from a motorized vehicle (car, truck, boat, snowmobile, motorcycle, all-terrain-vehicle, airplane, etc.) even if the vehicle is not moving.
- Sportsmen are prohibited from shooting or attempting to shoot a game animal from public (federal, state, county) highways or from the public right-of-way (shoulder, berm or barrow pit) along those highways.
- Sportsmen are prohibited from using any motorized vehicles (including airplanes) to concentrate, drive, rally, stir up or harass game animals or fur-bearing animals.
- Sportsmen are prohibited from transferring their license to another person or using a license issued to another person.
- Sportsmen are prohibited from hunting or taking any game animal without having a valid license on their person.
- Sportsmen are prohibited from hunting or taking any game animal by the aid or with the use of any set gun, jacklight or other artificial light, trap, snare, or salt lick, nor may any such aforementioned device to entrap or entice game animals be used, made, or set.

COMMON QUESTIONS & ANSWERS

What is the difference between a license and a permit?

A license affords you the opportunity to kill a big game animal as specified on the license.

A permit is issued through the special drawings and must be used in conjunction with a hunting license. It does not authorize you to kill a second animal, but rather, enhances your hunting opportunity in a specific hunting district by awarding you special privileges.

What is the difference between a deer A and a deer B license?

The deer A license is valid for one deer during the general season and can be utilized in any deer hunting district in the state for the species and sex indicated for that hunting district under the general season regulations. There are some exceptions to this general statement and sportsmen should check the regulations specific to the hunting district in which they wish to hunt.

The deer B license is valid for one deer subject to restrictions of seasons, species and sex, and hunting district(s). The deer B license is most often valid for antlerless deer. More than one deer B license per sportsman may be available in some hunting districts.

What is the special drawings process?

Applications must be postmarked no later than **June 1, 1989,** to be considered for the special drawings.

Drawing	The Special Drawing will take place during the second week of August. All drawings are held in succession. Results will not be made available until all drawings are complete.
Notification:	All special licenses and permits will be mailed during the third week of August.
Refunds:	Refunds will be mailed to unsuccessful applicants during the final week of August.
Surplus licenses:	Information regarding surplus licenses will be made available after Labor Day.

PLEASE DO NOT CALL FOR SPECIAL DRAWING RESULTS. If you have not received either a license or a refund by early September, call Special Licensing at 406/444-2950.

What can I do if I lose my license?

Duplicate licenses may be obtained by filing an affidavit stating your original license is beyond recovery, with your local game warden or with a Fish, Wildlife and Parks office. Upon payment of the specified fee, you may be issued a duplicate. Duplicate licenses are issued at the time of application.

What are Montana's residency requirements?

"Resident" means any person who has been a legal resident in the State of Montana for six (6) consecutive months immediately prior to purchasing a license, and who does not claim residency in any other state or country.

Where may I obtain detailed maps?

The Department of Fish, Wildlife and Parks does not provide any maps other than those included in these regulations. Agencies listed below may be contacted to supply area maps. Maps range in price from $1.25 to $5.00.

- Individual National Forest and travel maps of each National Forest that show restrictions on vehicular use can be obtained by writing to the U.S. Forest Service, Northern Region, Federal Building, P.O. Box 7669, Missoula, MT 59807.
- The Bureau of Land Management offers land status quad maps for most areas of the state. BLM maps may be obtained by writing the BLM, P.O. Box 36800, Billings, MT 59107.
- Topographical maps may be obtained by writing the Western Distribution Branch, U.S. Geological Survey, Box 25286, Federal Center, Denver, CO 80225.
- Charles M. Russell National Wildlife Refuge maps may be obtained by writing: CMR Manager, Box 110, Airport Road, Lewistown, MT 59457.

What is required to Transport Horses and Mules in Montana?

The Montana Department of Livestock requires a veterinary inspection certificate and an import permit prior to entry into Montana.

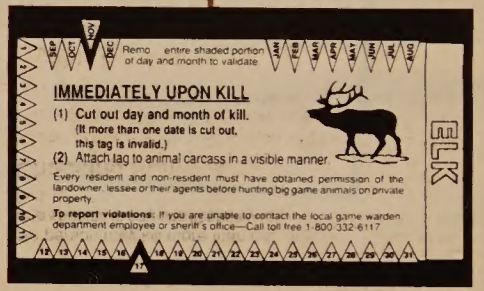
A brand inspection certificate is required for movement within Montana. For information call the Department of Livestock at (406) 444-2976.

Be Sure to Properly Validate Your License/Tag!

Immediately after killing a big game animal, all hunters must properly validate the appropriate license/tag and securely attach it to the animal so that it is clearly visible.

Proper validation is easy:

1) Locate the appropriate month and day the animal was killed and completely cut away (notch out) the month end day designations. The license/tag to the right, for example, has been properly validated for an animal taken on November 17.
2) **Be Careful!** The correct and appropriate month and day designations must be removed completely from the license/tag. Removing more than one month or one dey designation invalidates the license/tag.



Remo entire shaded portion of day and month to validate
IMMEDIATELY UPON KILL
(1) Cut out day and month of kill.
(It more than one date is cut out, this tag is invalid.)
(2) Attach tag to animal carcass in a visible manner.
Every resident and non-resident must have obtained permission of the landowner, lessee or their agents before hunting big game animals on private property.
To report violations: If you are unable to contact the local game warden department employee or sheriff's office—Call toll free 1-800 332-6117
ELK

What archery equipment is legal to use during ARCHERY ONLY seasons?

- **Long Bow** - a bow of the Medieval English type with the limbs and handle one continuous piece. There is little or no curving in the limb when unstrung.
- **Recurve Bow** - a bow with laminations of wood and/or epoxy resin type material and curve forward at the limb tips.
- **Compound Bow** - a bow using a combination of recurve and longbow limb design in which the limbs may be straight, short, laminated or epoxy type, but wider at the tips and adjustable for poundage. A type of eccentric wheels and cables assist in drawing the bow for the mechanical advantage that peak weight is reduced at full draw.
- **Crossbows** - may not be used during ARCHERY ONLY seasons.

May I hunt with a bow and arrow during rifle season?

Yes. But you must conform to the rifle season regulations. This includes wearing hunter orange.

LICENSES & GENERAL INFORMATION

- Sportsmen may hold and fill both a deer A and a deer B license. There are no requirements regarding the order of obtaining nor the order of filling either license.
- Sportsmen are limited to one deer A license per year, which is included in the resident's Sportsman's License, the nonresident Big Game Combination License and the nonresident Deer Combination License.
- Nonresident Deer Combination License holders that are landowner sponsored are reminded the license entitles them to hunt deer and upland game birds only on the land owned by the landowner sponsor. This does not include leased or public land. The license is valid statewide for fishing only. A general upland game bird license would be required to hunt statewide for upland game birds. The upland game bird license may be purchased at any Fish, Wildlife and Parks office or at most license agents throughout the state.
- Sportsmen may hold and fill more than one deer B license, subject to all specifications on the license issued. Opportunities to obtain a deer B license(s) include:
  1. Special drawing licenses, subject to all specifications on the license issued. (Some successful special drawing applicants also may be offered the opportunity to purchase additional deer B licenses subject to all specifications on the license issued.)
  2. Over-the-counter purchase for antlerless whitetail or antlerless mule deer only. (See information this page.)
  3. Special drawings or over-the-counter purchase of deer B licenses subject to all specifications on the license, may be coordinated by a Regional Headquarters.
- Sportsmen harvesting a deer must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.

Landowner Preference

- Montana landowners who qualify may receive preference in the deer B licenses and/or deer permits special drawings to hunt on their own land. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Unlimited, Multi-district, Antlerless Whitetail Deer B Licenses

- Sportsmen may purchase only one multi-district whitetail deer B license per year. This may be in addition to purchasing one multi-district mule deer B license and applying for a deer B license through the special drawings.
- Licenses are available from license agents within the 400, 600 and 700 series districts and all Fish, Wildlife and Parks offices, beginning early September.
- Licenses are valid for antlerless white-tailed deer only.
- Licenses are valid in any hunting district beginning with the number 4, except not valid in 400, 401, 402, 403 and 406; valid in all of hunting district 540 and the portion of 580 north of Sweetgrass Creek; and any hunting district beginning with the number 6 or 7.
- Licenses are valid Oct. 22-Nov. 26, with the following exception: valid in hunting district 641 from Oct. 22-Nov. 12 only.

Unlimited, Multi-district, Antlerless Mule Deer B Licenses

- Sportsman may purchase only one multi-district mule deer B license per year. This may be in addition to purchasing one multi-district whitetail deer B license and applying for a deer B license through the special drawings.
- Licenses are available from license agents within the 600 and 700 series districts and all Fish, Wildlife and Parks offices, beginning early September.
- Licenses are valid for antlerless mule deer only.
- Licenses are valid in any hunting district beginning with the numbers 6 or 7. Licenses are not valid on the Charles M. Russell National Wildlife Refuge or on Brinkman Game Preserve.
- Licenses are valid Oct. 22-Nov. 26, with the following exception: valid in hunting district 641 from Oct. 22 - Nov. 12 only.

SPECIAL SEASONS & TENTATIVE QUOTAS

Use this section to apply for deer licenses issued through the drawings.

Application deadline — June 1

Both resident and nonresident sportsmen are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.

Nonresidents must hold a Big Game Combination License or a Deer Combination License to be eligible to apply for a special deer permit.

Holders of a landowner sponsored Deer Combination License may apply for a special deer permit only in the district in which they are authorized to hunt deer.

Difficult to obtain access on the Preserve.

LICENSES & GENERAL INFORMATION

- Sportsmen may purchase only one elk license per year, which is included in the resident Sportsman's License and the nonresident Big Game Combination License.
- Only nonresidents holding a Big Game Combination License may hunt elk.
- Sportsmen harvesting an elk must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.
- Sportsmen may not hold both an A-5 elk license and an A-7 antlerless elk license. Holders of an A-7 license must hunt antlerless elk only in the designated area and **may not** hunt elk anywhere else in the state (bull or antlerless) in the 1989 season. If successful in drawing an A-7 license, the sportsman must obtain the A-7 license by Sept. 2, or forfeit the A-7 license. Only legal residents of Montana are eligible for A-7 licenses. If after obtaining the A-7 license the season in the designated area closes before there is an opportunity to hunt, a refund will be given and an A-5 license may be purchased.

Landowner Preference

- Montana landowners who qualify may receive preference in the elk permit and A-7 cow elk license special drawings to hunt on their own land. To qualify, the applicant must own 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion. When applying landowner preference, the permit or A-7 cow elk license is valid only on land owned in fee title by the applicant within the hunting district applied for.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

Elk Prerequisite

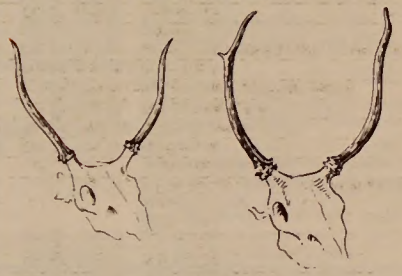
- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit. Applicants must list their 1989 general elk license number in the designated space on the 1989 special drawing application form, or their application will be eliminated from the elk special drawings.

Definitions

- Antlered Bull - any elk having an antler or antlers of at least four inches in length measured from the top of the skull.
- Antlerless - a female or juvenile male with antlers less than four inches in length measured form the top of the skull.

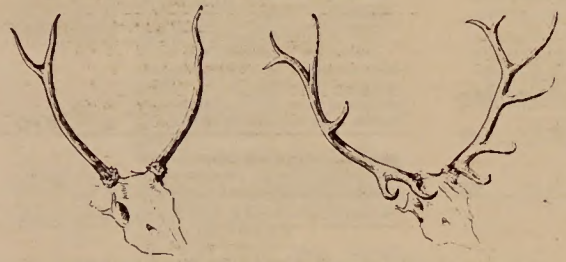
Montana has some elk hunting districts with special regulations governing the type of bull elk that is legal. The diagrams below are intended to assist the sportsmen in interpreting these special regulations.

SPIKE BULL



Spike Bull - any elk having antlers which do not branch, or if branched, branch is less than four inches long measured from the main antler.

BRANCH ANTLERED



Branch Antlered - any elk having an antler or antlers with a visible branching of one or more extensions from the main antler. An extension or branch on at least one side must be four inches in length or more measured from the main antler.

ANTLER POINT MEASURMENT

(Legal antler point must be 4 inches or more in length.)

SPECIAL SEASONS & TENTATIVE QUOTAS

Residents and nonresidents are required to purchase a general elk license prior to applying for e special elk permit or the A-7 cow elk license. Applicants must list their 1989 general elk license number in the designated space on the 1989 special drawing application form, or their application will be eliminated from the elk special drawings.

Both resident and nonresident sportsmen are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.

Hunting District	Season Opens - Closes	Special Permits and Licenses Tentative
100 SERIES DISTRICTS		
121	Oct. 30 - Nov. 26	150 permits for antlerless elk, valid in entire hunting district.
123	Oct. 22 - Nov. 26	100 permits for antlerless elk, valid in east of Eddy Creek Road.
130	Oct. 22 - Nov. 26	25 permits for antlerless elk, valid in entire hunting district.

210-02	Oct. 22 - Nov. 26	75 permits for antlerless elk, valid in remainder of district.
210-03	Sept. 1 - Dec. 15	25 permits for antlerless only elk, valid on private land only. Holders of this permit must hunt antlerless elk only in the area designated on the permit.

Special Seasons & Tentative Quotas Continued on Page 19.

The First 100 Years

1872

The headlong slaughter of buffalo for their hides and tongues, the booming trade in elk and deer hides and the uncontrolled killing of moose, antelope, mountain goat and bighorn sheep had led to the near extinction of these species. Realizing that action needed to be taken, the Territorial Legislature enacted a law closing the hunting season on those species from February 1 through August 15 each year.

1895

In its sixth year of statehood, the state of Montana set its first bag limits on big game to further reduce the perilous declines of several species. Hunters were limited to taking eight deer, eight bighorn sheep, eight mountain goats, eight antelope, two moose and two elk each year. Big game could only be hunted between September 1 and January 1.

1897

The virtual extinction of the moose from the state prompted the legislature to prohibit all moose hunting in Montana. Those that remained were limited, almost entirely, to the confines of Yellowstone National Park. The season remained closed until 1945 when increases in populations indicated that hunting regulated by modern game management principles, could be resumed in portions of Park, Gallatin, Madison, and Beaverhead counties.

1915

The journals of Lewis and Clark noted Rocky Mountain bighorn sheep throughout the area that is now Montana. The bighorns in the lower Missouri and Yellowstone River Breaks regions were later classified as the Audubon subspecies. Though they were numerous in the area during the early 1900s, wild sheep populations decreased markedly due to range competition with in-coming herds of domestic livestock, contraction of diseases from domestic sheep and meat hunting by early settlers. Due to these declines, the season for hunting bighorns was closed in 1915 and did not reopen until 1953. As a result of modern wildlife management, which included trapping and transplanting efforts, nearly 4,700 bighorns are now estimated to live among the 33 distinct herds throughout the state and bighorns are once more roaming their historical lower Missouri Breaks range. Annually, many of the continent's finest trophy bighorn rams are taken in Montana.

1925

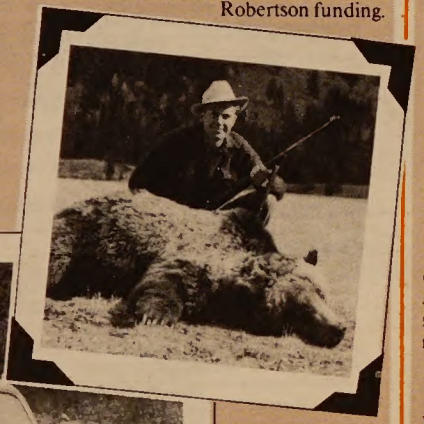
In 1925 the number of pronghorn antelope in all of Montana was estimated at about 3,000. Today, approximately 160,000 of these prairie speedsters inhabit the state. In 1935, for the first time, hunters in Carter and Powder River counties could hunt antelope only with a permit. In 1989, in those same counties, anyone that wants an antelope license can obtain at least one.

1926

In 1926, the state acquired 27 acres of land at Red Rock Lakes in Beaverhead County. The move represented the first such acquisition of land primarily for the purpose of wildlife management. Although other small tracts of land were acquired in the intervening years, the department's structured land acquisition program effectively began in 1940 with the purchase of the Setter property on the banks of the Judith River near Utica as winter range for elk. Since the purchase of the Judith River Game Range, Montana's first wildlife management area, over 303,000 acres of Montana have been acquired for their wildlife values, soley with sportsmens' dollars.

1941

With passage of the Pittman-Robertson Federal Aid in Wildlife Restoration Act in 1937, federal monies derived from excise taxes on hunting arms and ammunition became available to the states for use in their wildlife management efforts. In 1941, following the Montana Fish and Game Commission's adoption of a policy stating that all future wildlife management would be performed on a scientific basis, the department initiated its first big game and upland game bird population surveys with money provided through Pittman-Robertson funding.



1957

Populations of both mule deer and white-tailed deer were part of Montana's wildlife scene at the time of the earliest explorers and played an important role in the early development of Montana. They were a staple diet for most early explorers, trappers, miners, loggers and railroad crews, and in northwestern Montana between 1893 and 1900 deer hides were considered legal tender worth 50 cents each.

Mule deer numbers have fluctuated considerably throughout this century. Researchers are now finding that mule deer population levels do fluctuate in response to weather patterns and range conditions. Mule deer numbers "bottomed-out" in early 1970s due to a combination of low numbers of fawns and poor over winter survival. Mule deer populations have rebounded and are now being sustained at healthy levels.

White-tailed deer have continued to increase their range and numbers in Montana over the last several decades. A chronic problem in managing Montana's whitetails has been obtaining an adequate harvest, especially in areas with rugged terrain and on private lands where hunting is restricted but where the deer can cause damage to haystacks and other agricultural crops.

Recent annual harvest of both species have already met or are approaching all-time highs.

1970

Since its birth in 1970, Montana Outdoors magazine has evolved into one of the nation's finest state resource agency periodicals. A winner of several national awards, Montana Outdoors now is sent to over 35,000 subscribers and enjoyed by over 100,000 readers every other month. The magazines annual January/February "Special Photo Issue" remains a favorite among both readers and magazine collectors.

1987

With the passage of House Bill 526 by the 1987 Montana Legislature, Montana embarked upon one of the most ambitious state-administered wildlife habitat protection programs in the nation. The bill's passage raised fees for certain hunting and fishing licenses and earmarked the revenues gained through these increases for acquisition of important wildlife habitat through easements, leases or purchase. The success of HB 526 was particulary notable because it brought together Montana's agricultural community, the Montana Wildlife Federation, sportsman's clubs, private conservation organizations and the Department of Fish, Wildlife and Parks for the benefit of the state's wildlife.

1901

To allow recovery of game populations, the Montana Legislature realized that enforcement of fish and game laws was necessary. The first State Game Warden, W.F. Scott, was hired by the governor in 1901 and the state's first Fish and Game Department was organized. The State Game Warden was assisted by eight deputy game wardens located throughout the state. These wardens were the department's first and, at the time, only employees. Montana's first wildlife manager was not hired until 1940, when the need for scientifically trained people in animal biology and habitat management was first recognized.

1905

To pay for increased law enforcement needs, the legislature in 1905 established Montana's first hunting and fishing license. The cost of this license, which was valid for the hunter and his entire family, was $1.00 per year. A separate big game hunting license was established in 1931. For the $1.00 cost for this license, hunters could take legal limits of deer and elk. The cost of this license was increased to $2.00 in 1947.

1910

At the turn of the century, less than 20,000 elk were thought to inhabit the nation and the vast majority of these lived in and around Yellowstone National Park. In 1910, for the first time, elk were trapped in the park and transplanted to the Fleecer Mountains of southwestern Montana in an attempt to establish a new herd. As a result of effective wildlife management, including the transplanting of elk to the Missouri River Breaks region of northeastern Montana in 1957, elk now inhabit much of their historical Montana range.

Montanans enjoy a wild legacy as magnificent as any in the world. If we are to maintain this legacy and ensure that the state's wildlife resources will play as significant a role in Montana 100 years from now as it does today, we must all make an effort to provide for the needs of and encourage the wise use of this priceless resource.

Looking Toward Montana's Bicentennial

The Second 100 Years

For the first time in our 85-year history of striving to increase big game herds, there is now a clear difference of opinion about how many is enough. We can look back for the first time in this century and say that most of the historic populations of mule deer, white-tailed deer, bighorn sheep, and mountain goats have been restored. Most of the lands now capable of supporting elk, moose, and black bear are currently inhabited by these animals.

Like it or not, we are leaving a period of dramatic big game population increases and entering a period of protecting and perpetuating what we have.

Proposed future strategies include upgrading population trend surveys, modeling populations, and improving our ability to determine allowable harvest rates.

Other efforts will be taken to: 1) complete long term species management plans; 2) complete wildlife management area plans; 3) enhance public participation in program development and management decisions; 4) develop more cooperative programs with public land management agencies; 5) maintain quality and diversity of hunting opportunities; 6) improve landowner/sportsmen relationships; and 7(obtaining access for hunting on private lands.

LICENSES & GENERAL INFORMATION

- Sportsmen may purchase only one black bear license per year. This is included in the resident Sportsman's License and the nonresident Big Game Combination License.
- Black bear licenses are available at all Fish, Wildlife and Parks offices and most license agents throughout the state.
- Sportsmen may legally take one black bear per license year. Female bears with young and individual cubs may not be harvested.
- All districts listed below shall be open to hunting of black bear of either sex.
- The black bear license and tag must be attached to the animal immediately upon kill. The tag is to remain attached to the hide until tanned. Evidence of sex must remain naturally intact on the hide.
- Sportsmen harvesting a black bear must, if required by the Department, physically go back to the kill site for inspection.
- It is illegal to bait bears or to hunt bears with dogs.
- Current harvest information may be obtained by calling the appropriate Fish, Wildlife and Parks Regional Headquarters during normal business hours. See Regional Headquarters listings on page 5. Sportsmen may call toll-free 1-800-332-6117 during the authorized black bear hunting season to obtain current information on district closures.

MANDATORY REPORTING REQUIREMENTS

- Within 10 days of harvesting a black bear, the successful hunter must present to an official of the department the bear skull for removal of a tooth (used to determine age).

GENERAL SEASONS

There are no bear harvest quotas/female sub-quotas in all 100-400 series black bear hunting districts. Bear harvest quotas/female sub-quotas do occur in the 500 series districts.

LICENSES & GENERAL INFORMATION

- Legally described Bear Management Areas (BMAs) — the Rocky Mountain East Front, Scapegoat, and Flathead — within the area known as the Northern Continental Divide Ecosystem are open to the hunting of grizzly bears of either sex beginning October 1, 1989. The grizzly bear season is scheduled to close November 26, 1989. However, any or all of the BMAs will close on 48 hours notice if the total mortality quota, or the female subquotas, are reached before November 26, 1989.
- Each BMA has its own female grizzly bear mortality subquota. The Northern Continental Divide Ecosystem's quota, and each BMA's female subquota, include all grizzly bears killed by human activity in 1989, which may or may not include grizzly bears legally harvested by sportsmen. It is possible then, that the total grizzly bear mortality quota, or any or all of the individual BMAs female subquotas, could be reached before October 1, 1989, which would preclude the hunting season from opening.
- Sportsmen may purchase only one grizzly bear license per year, available from the Helena Headquarters only. Application deadline is August 31.
- Refunds for licenses will be made only upon written request to the Director, and only if a season is not offered or if the applicant's license is received after the season closes in the Northern Continental Divide Ecosystem. Season closure in the sportsman's individual bear management area of choice will not be considered valid for a refund if the season remains open in another bear management area.
- Sportsmen may legally harvest one grizzly bear of either sex. Female bears with young and individual young may not be harvested.
- Sportsmen are limited to a "once-in-a-lifetime" harvest of e grizzly bear.
- To reduce the likelihood of taking a female grizzly bear, hunters are requested not to shoot grizzly bears found in groups of two or more.
- The grizzly bear license and tag must be attached to the hide immediately upon kill. Evidence of sex must remain naturally intact on the carcass or skin.
- Sportsmen harvesting a grizzly bear must, if required by the Department, physically return to the kill site for inspection.
- It is prohibited for any person to remove any portion of a grizzly bear from the State of Montana without first obtaining a trophy license.
- It is illegal to bait bears or to hunt bears with dogs.
- Current harvest information may be obtained by calling the appropriate Fish, Wildlife and Parks Regional Headquarters during normal business hours. See Regional Headquarters listings on page 5. Sportsmen may call toll-free 1-800-332-6117 during the authorized grizzly bear hunting season to obtain current information on districts closures.

MANDATORY REPORTING REQUIREMENTS

- Any person taking a grizzly bear must report the harvest within 48 hours to an official of the department and must personally present the hide and skull within 10 days to an official of the department for purposes of inspection, tagging, and recording of kill. The hide and head must be retained even though damaged. Sportsmen harvesting a grizzly bear must on demand physically go back to the kill site for inspection.

- Antelope may be harvested only in the specific hunting district in which the license is valid.

GENERAL INFORMATION

- Sportsmen may apply for antelope licenses in groups of five or less (party applications). Each party member will receive a license, or no one will.
- Sportsmen harvesting an antelope must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.

Definitions

- Doe/Fawn - any antelope with horns less than four inches in length measured from the top of the skull.

- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Disabled Resident Preference

- Legislation established 25 special antelope licenses to be issued through a special drawing process to Montana residents who are permanently physically handicapped and nonambulatory as defined by the Department Rule 12.3.106. These licenses are available only in those antelope hunting districts that have a quota of 50 or more licenses.

UNLIMITED, MULTI-DISTRICT, DOE/FAWN ANTELOPE LICENSE

- Sportsmen may purchase only one multi-district doe/fawn antelope license per year. This may be in addition to applying for an either sex license.
- Licenses are available from license agents within the 600 and 700 series districts and from all Fish, Wildlife and Parks offices, beginning early September.
- Licenses are valid for doe/fawn antelope only.
- Licenses are valid in any hunting district beginning with the number 6 or 7.
- Licenses are valid Oct. 8-Nov. 26.

SPECIAL SEASONS & TENTATIVE QUOTAS

Both resident and nonresident sportsmen are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.

Multi-District ARCHERY ONLY - See Archery Section below		

ARCHERY

- All licenses to hunt antelope are awarded through the special drawings. Archers must have been awarded one of these licenses to hunt during the ARCHERY ONLY season.
- ARCHERY ONLY season is September 2 through October 7, 1989, with the following exception:
  1) Hunting district 380 open to ARCHERY ONLY from September 2 through November 5, 1989.
- All legally described antelope hunting districts are open to ARCHERY ONLY for antelope subject to all specifications on the license issued which includes hunting only in the district and for the sex of antelope listed on the license.
- An archery stamp plus the proper hunting license is required of all sportsmen during ARCHERY ONLY season.
- During any ARCHERY ONLY season, only a longbow, recurve bow or compound bow may be used. Arrows dipped in or containing any poisonous, explosive or deleterious substances are prohibited.
- **Crossbows may not be used during ARCHERY ONLY seasons.**

Multi-District ARCHERY ONLY

800 Sept. 2 - Nov. 5 either sex - ARCHERY ONLY

Those hunters receiving these licenses can purchase one additional doe/fawn antelope license available over-the-counter at all Fish, Wildlife and Parks Headquarters.

Each of these licenses will be valid in the following antelope hunting districts: 339, 340; any hunting district beginning with the number 4 (except not valid in 455 and 460); and any hunting district beginning with the number 5, 6 or 7.

Sportsmen who apply for hunting district 800 cannot apply for an antelope license in any other antelope hunting district. Archers using these licenses during the antelope "gun" season must wear hunter's orange.

LICENSES & GENERAL INFORMATION

- Moose licenses are awarded through special drawings.
- Application deadline - June 1.
- License holders may legally take one moose subject to all specifications on the license issued.
- Sportsmen harvesting a moose must leave evidence of sex naturally attached to the carcass.
- Sportsmen harvesting a moose must, if required by the department, physically return to the kill site for inspection and on demand show the complete head.
- There is no ARCHERY ONLY season for moose.

Legislation authorizes the Fish and Game Commission to provide for the auction of a moose license each year. This license authorizes the sportsman to take an antlered bull moose in any district of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the moose will not be counted against the district quota. This license holder may hunt only in areas open to moose hunting.

Definitions

- Antlered Bull - any moose having an antler or antlers of at least four inches in length measured from the top of the skull.
- Antlerless - a female or juvenile male with an antler or antlers less than four inches in length measured from the top of the skull.

JUDGING A "LEGAL RAM"

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the ram is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See illustration above.

Determination of a legal ram should be made from a broadside view of the head.

Map only intended as a guide—please refer to the legal descriptions for actual boundaries.

CLOSED TO HUNTING FOR BIG GAME

HILL COUNTY PARK CLOSED

Cooperative Travel Management Areas

Through cooperative agreement with public and private landowners, motor vehicle use is limited to specific roads in several locations in Montana. The co-operative travel management program will be in effect during the general big game season.

LICENSES & GENERAL INFORMATION

There are two types of bighorn sheep licenses: Limited and Unlimited.

Limited Licenses - These licenses are awarded only through the special drawing and are designed to limit the number of sportsmen in a specific hunting district(s). Sportsmen may apply for one limited license area only and it must be the first district choice.

- Application deadline - June 1.

Unlimited Licenses - These licenses are awarded either through the special drawing process or by purchase at the Department of Fish, Wildlife and Parks' Helena Headquarters. If appying for a limited license area also, the unlimited license area must be listed as the second choice area.

If a sportsman is unsuccessful in the limited license area special drawing and has properly filled out a "second-choice" under "unlimited license area only" he is guaranteed to receive the unlimited license.

If a sportsman chooses not to epply through the special drawing, he may purchase the unlimited license through the Special License Section at the Helena Headquarters no later then August 31.

- Each bighorn sheep license is valid in the hunting district(s) and for the time period specified on the license.
- License holders may legally take one bighorn sheep, subject to all specifications on the license issued.
- Sportsmen harvesting a bighorn sheep must, if required by the department, physically return to the kill site for inspection and on demand show the complete head and cape intact.
- Sportsmen harvesting a bighorn sheep with a license valid for a "legal ram" must not alter the head and horns as to affect determination of legality.
- Sportsmen harvesting a bighorn ram must personally present the complete head and cape **intact** within 48 hours to any Fish, Wildlife and Parks office, game warden, or designated employee in the administrative region where the bighorn ram was taken. At that time, a transportation permit will be issued.

Bighorn ram horns greater than one-half curl must be plugged or pinned at any Fish, Wildlife and Parks office within 10 days after harvest. A listing of designated personnel and phone numbers will be provided to all bighorn sheep license holders. If a reporting hunter is unable to contact any of the offices, wardens, or designated personnel, he may call the toll-free number 1-800-332-6117.

- There is no ARCHERY ONLY season for bighorn sheep.
- It is illegal to possess a sheep head picked up in the wild.
- Legislation authorizes the Fish and Game Commission to provide for the auction of a bighorn sheep license each year. This license authorizes the sportsman to take a 3/4 curl or greater ram in any district(s) of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the sheep will not be counted against the district quota. This license holder may only hunt in areas open to hunting (i.e., if an unlimited area closes due to reaching the quota, the license holder may not hunt in that area).

LIMITED LICENSES

SPECIAL SEASONS & TENTATIVE QUOTAS

Both resident and nonresident sportsmen are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.

LICENSES & GENERAL INFORMATION

- Buffalo licenses are awarded through a special drawing. Buffalo license drawing application forms will be evailable to sportsmen in late April, at Department of Fish, Wildlife and Parks Regional Headquarters, the Helena Headquarters and general license dealers. Applications must be completed and sent to the Montana Department of Fish, Wildlife and Perks, 1420 East Sixth Avenue, Helena, Montane 59620. Applications must be postmarked no later than August 31, 1989, end they must be accompanied by a $5 nonrefundable drawing fee.
- A random drawing will be held as soon after the August 31, 1989, application deadline as is practical. The names of the first 250 applicants drawn will be put on a roster which will be used for notifying sportsmen as hunting opportunities arise.
- Sportsmen on the roster will be notified by mail of their position on the roster and will be offered en opportunity to hunt in the order in which they were drawn. An information packet regarding the buffalo season will be sent to each sportsman on the roster. **Unsuccessful applicents will not be notified.**

GENERAL REGULATIONS

1. General regulations es listed on the 1989 Big Game Hunting Map shall govern the 1989-90 buffalo hunting season. The season will begin October 1, 1989 and end September 30, 1990.
2. Sportsmen must purchase a buffalo license when they arrive et the location specified during the call that notifies them that a hunting opportunity is likely. Only cash, money orders or cashiers checks will be accepted from nonresidents. Personal checks will be accepted from residents. Sportsmen must hold a current conservation license ($2). Sportsmen under 18 years of age must provide officials with their Hunter Education Certificate of Competency number. Montana residents must hold a Montana Certificate.
3. The fee for a RESIDENT BUFFALO LICENSE is $200. The NONRESIDENT BUFFALO LICENSE fee is $1,000.
4. Only rifle hunting will be allowed (black-powder rifles are permitted.)

NOTIFICATION & HUNT PROCEDURE

1. Sportsmen will be notifed by telephone when the Department of Fish, Wildlife and Parks determines a hunting opportunity for buffalo is likely. Telephone calls will be made during the evening hours between 6 p.m. and 10 p.m. on the day buffalo are outside th boundaries of Yellowstone National Park.
2. A minimum of three attempts by telephone will be made that evening to contact end notify any one sportsman. Notification attempts will be spaced at a minimum of half-hour intervals. Additional calls mey be made if necessary.
3. Department of Fish, Wildlife and Parks personnel must speak directly to the sportsman during the notification call.
4. If a sportsman cannot be reached, his/her name will be removed from the roster.
5. Sportsmen will be advised during the notification call of the following procedures:
   a) They must be present at the designated check-in point within 36 hours following phone contact or their rioht to hunt will be forfeited.
   b) Animal harvest selection will be determined for the sportsman in the order which he/she was selected during the drawing. In the event of there being more than one hunter afield—at the same time and et the same location—then the ranking of the individual sportsman on the roster will dictate the order of the buffalo selection.
   c) Sportsmen who decline to harvest the type of animal they are told are available during the notification call will be removed from the roster.
   d) Animals available when the sportsman arrives to hunt may differ from those available at the time of the notification call. If a sportsman declines to harvest the buffalo specified by the Department officials, the sportsman's opportunity to hunt and his/her license fee will be forfeited and they will be removed from the roster.
6. Sportsmen have one day, after arrival at the hunting site, to hunt a buffalo.
7. If a sportsman has e reasonable chance to harvest a buffalo on the day assigned, but does not, the sportsman's opportunity to hunt and his/her license fee will be forfeited.
8. In the event buffalo are not available to the sportsman on the day the license is valid, the license fee will be refunded and the sportsman will remain in the same priority on the roster for the next available hunt of that season.
9. Any questions regarding the sportsman notification procedure and hunt format should be directed to the Bozeman office of the Department of Fish, Wildlife and Parks, 1400 South 19th, Bozeman, Montana 59715; or call (406) 994-4042.

LICENSES & GENERAL INFORMATION

- Sportsmen may purchase only one mountain lion license per year.
- Mountain lion licenses are available at all Fish, Wildlife and Parks offices only.
- Mountain lion licenses must be applied for no later than August 31.
- Sportsmen who wish to hunt in Region one, must at the time of purchase select and validate their lion license for only one hunting district(s) option in Region One (100 series hunting districts). Sportsmen may not hunt in more than one option in Region One, but may still hunt in any 2, 3, 4, 5 or 7 series hunting districts as prescribed in these regulations.
- Sportsmen may legally take one adult mountain lion per season.
- Sportsmen may legally begin the chase season any time after kill is made (chase permit will be issued when lion license is sold).
- When the total quota is reached in a hunting district(s), the mountain lion season for that area will close upon 48-hours' notice, but no later than February 15.
- When the female subquota is reached in the hunting district or hunting district groups, the lion season will remain open for only male (Tom) lion until the total quota is reached and then the area will close upon 48 hours' notice but no later than February 15.
- Females with kittens may not be taken. If a lactating female is killed, she shall be backtracked and the kittens captured and turned over to the Department of Fish, Wildlife and Parks. (Kittens are young of the year.) No juveniles (with body spots) shall be killed.
- Evidence of sex must remain intact on the hide. Evidence of sex must be verified by Department personnel before a trophy license is issued. It will also be mandatory that skulls be turned in and tagged at the time a trophy license is issued.
- Dogs may be used in hunting or chasing mountain lion within seasons.
- All Wildlife Management Areas (Game Ranges) closed to lion hunting.
- Sportsmen may call toll-free 1-800-332-6117 during the authorized mountain lion hunting season to obtain current information on districts which have reached the quotas. Current harvest information may be obtained by calling the appropriate Fish, Wildlife and Parks Regional Headquarters during normal business hours. See Regional Headquarters listings on page 5.

MOUNTAIN LION — TROPHY

Sportsmen harvesting a mountain lion must:

- Personally report their lion kill within 48 hours to an officer of the Department of Fish, Wildlife and Parks in the administrative region (see Regional Headquarters listing, page 5) where the kill was made, and must personally present the hide and skull within 10 days to an officer of the Department residing in the administrative region in which the license was filled, for the purpose of inspection, tagging, recording of kill, and issuance of a trophy license.
- The metal hide tag must thereafter remain attached to the hide until tanned.
- The duplicate metal skull tag must remain attached to the skull for at least one year.
- The lion skull will be retained by the Department of Fish, Wildlife and Parks for processing and examination and then returned to the owner.
- It is unlawful for anyone to possess, ship or transport any mountain lion, or part thereof, unless they have been tagged as prescribed.
- On demand, physically return to the kill site for inspection.

SPECIAL DRAWING APPLICATION CHECK LIST

Every year several sportsmen are eliminated from our special drawings because of an error on their application. Improper hunting district numbers listed is one of the most common errors. To help prevent you from making this mistake, we have developed this listing of valid hunting districts.

If the number on the application is not on this checklist, you have made an error on your application.

If you have made an error, refer back to the regulations for the specie in question to obtain the proper hunting district number or call the Special License Section at 444-2950 for further assistance.
